Shrine's ray of reflection proves a fitting tribute

Let there be light

At the Shrine of Remembrance in Melbourne's domain, an extraordinary light installation has been created to remember the lives lost in World War II. The installation, titled "Light from the West," is a dedicated tribute to the men and women who fought for our freedom.

The project was initiated by artist Davidова and is a collaboration between a local council in Melbourne and the Shrine. The light is cast from a unique aperture located on the south side of the shrine, creating a moving beam that passes through a small window. As the light travels through the building, it creates a beautiful and moving display that commemorates the sacrifice of so many.

"This work is a tribute to those who lost their lives in the war," said artist Davidова. "It is a way for us to remember their bravery and the ultimate sacrifice they made for our freedom."

The installation is part of a larger project to improve the Shrine of Remembrance, making it a more accessible and welcoming space for visitors. The project was funded through a partnership between the council and the Shrine, and it is expected to be completed in the next few months.

For more information, visit the Shrine of Remembrance website or contact the council for details.
